Subject Index

Abstracts for AANS Annual Meeting

Alavi A, Weller S, Alves W, Reivich M, Gennarelli T. *Distinct pattern of PET metabolic abnormalities of diffuse axonal injury secondary to head trauma*, 310A

Albright L, Wisoff J, Zeltzer P. *Current neurosurgical treatment of medulloblastomas*, 333A

Apfelbaum RI. *Anterior screw fixation for C1–2 instability*, 316A

Apuzzo MLJ, Neal JH, Weiner LP, Appley AJ, Wheelock VL, Waters C, Boyd SM, Couldwell WT, Chandrasoma PT. *Utilization of unilateral and bilateral stereotaxically placed adrenomedullary-striatal autografts in parkinsonian humans: rationale, techniques, and observations*, 318A

Aritake K, Sano K, Segawa H. *Clinical usefulness of dynamic CT for rapid evaluation of patients considered for emergency cerebral revascularization*, 313A

Awad IA, Akrawi WP, Little JR, Furlan AJ. *Dural AVM's with aggressive natural history*, 321A

———, Lüders H, Hahn J. *Extent of resection and the outcome of temporal lobectomy for epilepsy*, 328A

Awasthi D, Church D, Torbati D, Carey ME, Pryor W. *The generation of free radicals in experimental traumatic brain injury*, 323A

Bailes JE, Spetzler RF, Hadley MN, Baldwin HZ, Zabramski JM. *Management morbidity and mortality of Hunt and Hess Grades IV and V aneurysm patients*, 309A

Bankiewicz KS, Skirboll S, Mefford I, Hsaio J, Saunders R, Aigner T, Plunkett RJ, Wang J, Oldfield EH, Jordan K. *Microdialysis — a new tool to study implant or injury-induced recovery in MPTP-parkinsonian monkeys*, 328A

Barnwell SL, Halbach V, Higashida R, Hieshima G, Wilson CB. *Complex dural arteriovenous fistulas: results of a new combined neurosurgical and interventional neuroradiological technique*, 310A

Bederson JB, Wilson CB. *Evaluation of posterior fossa exploration in 252 cases of trigeminal neuralgia*, 330A

Berger MS, Ojemann GA, Lettich E. *Intraoperative brain mapping techniques to maximize tumor resection: experience with 96 adult and pediatric patients*, 322A

Brightman RP, Miller CA. *Posterior lumbar interbody fusion: indications and results in 70 patients*, 315A

Brown JA, Preul MC, Modarai B, Anderson D. *Percutaneous microcompression for trigeminal neuralgia — low incidence of severe hypesthesia*, 330A

Bucholz RD, Backer R. *Transthoracic decompression and short fusion for spinal cord injuries: long-term outcome study*, 324A

Bunge HJ, Guevara JA, Chinela AB. *Radiosurgery in arteriovenous malformations: a 4-year experience with the gamma knife*, 317A

Comair YG, Villemure JG, Arnold D, Leblanc R, Pokrupa R. *Evidence of low intracellular pH using NMR spectroscopy in patients with NPH implications on prediction of outcome*, 326A

Conte SO. *The role of the neurosciences in the decade of the brain*, 309A

Cusick JF, Pintar F, Yoganandan N, Reinartz J. *Biomechanics of lumbar facetectomy during flexion-compression*, 334A

Eisenberg HM, Gary HE Jr, Saydjari C, Turner B, NIH TCDB Writing Group. *Subarachnoid blood predicts death in patients with severe head injury: a CT scan study from the NIH Traumatic Coma Data Bank (TCDB)*, 326A

Findlay JM, Weir B, Gordon P, Grace MG, Baughman R. *Safety and efficacy of intrathecal thrombolytic therapy in a primate model of cerebral vasospasm*, 317A

Abstracts for AANS Annual Meeting *(continued)*

Fitzpatrick BC, Johnson PC, Drayer BP, Spetzler RF. *Correlation of postmortem magnetic resonance images and neuropathological findings in 23 patients with gliomas*, 322A

Friedman ED, Carmel PW, Bello J. *Management of CSF-containing cysts of the brain in the pediatric population, or "nature abhors a vacuum,"* 332A

Friehs GM, He L, Parker RG, Haines SJ, Turner DA, Ebner TJ, Elde RP, Chou SN. *Stereotaxic radiofrequency lesioning of the caudate nucleus without transplantation reduces motor asymmetry in a rodent model of Parkinson's disease*, 330A

Fukushima T, Sano K. *Replacement of the skull base carotid artery with a saphenous vein: a new bypass procedure*, 319A

Gaskill SJ, Marlin AE. *Pseudocysts of the abdomen associated with ventriculoperitoneal shunts: a report of 12 cases and review of the literature*, 332A

Glick RP, Unterman TG, Becker R, Mahathri VK, Parra M, Naviwala B. *Production of insulin-like growth factor binding proteins by CNS tumors*, 321A

Gokaslan ZL, Robertson CS, Narayan RK, Contant CF, Grossman RG. *Prognostic, pathophysiological, and therapeutic implications of CBF patterns in head injury*, 323A

Goumnerova L, Hoffman H, Walters B, Humphreys R, Hendrick B. *Perioperative antibiotic prophylaxis in shunt surgery*, 311A

Green BA, Eismont FJ, Klose KJ, Patchen S. *A review of delayed decompression procedures in spinal cord injury patients*, 333A

Gutin PH, Leibel SA, Larson DA, Wara WM, Silver P. *Survival and quality of life following interstitial implantation of removable high-activity iodine-125 sources for recurrent malignant gliomas*, 322A

Hahn YS, McLone DG. *Identifying risk factors in minor head injury in children*, 332A

Harris ME, Wilberger JE, Maroon JC, Diamond DL. *Acute traumatic subdural hematoma: does timing of operation affect survival?*, 323A

Heffez DS, Aryanpur J, Freeman JM, Hutchins GM. *Surgically created dysraphism in the fetal rat: implications for the cause of paralysis in spina bifida*, 315A

Hudson A, Bain J, Mackinnon S, Hunter D. *Regeneration in primate peripheral nerve allografts*, 325A

Ikeda Y, Ikeda K, Long DM. *Comparative study of different iron chelating agents in traumatic brain edema*, 326A

Jho HD, Jannetta PJ. *Spasmodic torticollis treated with microvascular decompression of the spinal accessory nerve and the brain stem*, 312A

Johnson DL, Eichelberger M. *The effect of pre-hospital triage on the mortality of head injuries in children*, 324A

Kanev PM, Lemire RJ, Loeser JD, Berger MS. *Management of children with lipomyelomeningocele: long-term follow-up*, 327A

Kim P, Ebersold MJ, Onofrio BM, Quast LM. *Surgery of spinal nerve schwannoma: section of the roots and risks of developing neurological deficits*, 315A

Klein S, Sanford RA, Muhlbauer MS. *Treatment of children with metastatic spinal cord compression*, 315A

Knuckey N, Gelbard S, Epstein MH. *The natural history of "asymptomatic" epidural hematomas: a prospective study*, 326A

Lanman TH, Vinters H, Martin NA, Hessler R, Becker D. *Encephalic vascular malformations: a clinicopathological study*, 313A

Index

Abstracts for AANS Annual Meeting *(continued)*

Laws ER, Jr, Goldberg WJ, Bernstein JJ. *A neural grafting model of infiltrating astrocytoma*, 311A

Lazorthes Y, Caute-Sallerin B, Carillo JP, Verdie JC, Bastide R. *Chronic intrathecal baclofen infusion for spasticity control*, 312A

———, Verdie JC, Caute-Sallerin B. *Spinal versus intraventricular morphine administration for cancer pain*, 331A

Levesque MF, Sutherling WW, Risinger M, Becker DP, Crandall PH. *Variability of speech cortex during functional localization — implication for plasticity*, 329A

Levin AB. *Anterior spinal cord decompression with bone and plate fixation: a 13-year experience*, 325A

Lunsford LD, Coffey RJ, Flickinger JC. *Intracranial neoplasms treated by stereotaxic radiosurgery: evidence for an expanding role*, 314A

Mallya KB, Galicich JH, Bains MS. *Resection of extensive spinal tumors by single-stage anterior-posterior approach*, 316A

Marsh WR. *Selective posterior cerebral artery Amytal test for evaluating memory function prior to temporal lobe surgery*, 329A

Maynard DW, Boop FA, Story JL, Brown WE Jr, Moyer MP. In vitro *models of neurotransplantation: adult human adrenal medullary tissue*, 328A

McGregor J, Goodman J, Gahbauer R, Clendenon N, Fairchild R. *Cerebral microvascular reactions in an implanted rat glioma following boron neutron capture therapy*, 318A

Menezes AH, Clark CA. *Cranial settling: odontoid upward migration in rheumatoid arthritis — management and long-term results*, 319A

Merchant RE, McVicar DW, Merchant LH, Young HF. *Long-term follow-up of patients with recurrent malignant glioma treated with intraparenchymal injections of lymphokine-activated killer cells and recombinant interleukin-2*, 309A

Mohr G, Dufour JJ. *Selective suboccipital transmeatal vestibular nerve section for Ménière's disease*, 329A

Myers PW, Brophy J, Salazar AM, Jonas B. *Retained bone fragments after penetrating brain wounds: long-term follow-up in Vietnam veterans*, 319A

Nockels RP, Young W, DeCrescito V. *The effect of 21-aminosteroids on experimental spinal cord injury*, 322A

Osenbach RK, Menezes AH. *Pediatric spine and spinal cord injuries*, 327A

Piepmeier JM, Hamilton J. *Neoplastic transformation of murine astrocytes by transfection with glioma-associated oncogenes*, 321A

Plunkett RJ, Bankiewicz KS, Miletich RS, Schwartz J, Oldfield EH. *Long-term evaluation of hemiparkinsonian monkeys after adrenal autografting or cavitation alone*, 327A

Rachlin JR, Baumgartner JE, Berens M, Rosenblum ML. *Transformation of primary human arachnoidal cells* in vitro *and relationship to transformation* in vivo, 321A

Rawlings CE III, Nashold BS Jr, El-Naggar A. *The DREZ operation: an update on current techniques*, 331A

Rengachary S, Redford J. *Partial median vertebrectomy and fibular grafting in the management of cervical spondylotic myelopathy*, 325A

Robertson CS, Narayan RK, Contant CF, Grossman RG. *The effect of glucose administration on cerebral availability and metabolism of energy substrates after severe head injury*, 327A

Robertson JH, Gardner G. *Meningiomas of the temporal bone*, 312A

Rodriguez LA, Prados M, David R, Gutin P, Wilson CB. *Malignant meningiomas: an analysis of 35 cases*, 318A

Romner B, Ljunggren B, Brandt L, Saveland H. *Transcranial Doppler sonography in the first 12 hours after subarachnoid hemorrhage*, 313A

Rosenwasser RH, Krzeminski J, Pattisapu JV, Buchheit WA.

Abstracts for AANS Annual Meeting *(continued)*

Pedicle screw fixation in lumbar spine surgery — a neurosurgical perspective, 334A

Ross DA, Barbaro N, Drasner K, Weinstein P, Flaherty J. *A randomized, prospective, double-blind, placebo-controlled, dose-response trial of intrathecal morphine after lumbar spine surgery*, 333A

———, Saya H, Stephen S, Edwards MSB, Levin V. *Differential effects of polyamine depletion on expression of c-myc and c-src proto-oncogenes in the medulloblastoma cell line, TE-671: uncoupling of c-myc expression and cell division*, 332A

Rutka JT, Rosenblum ML, Apodaca G. *The secretion of proteases by human malignant gliomas: possible mechanism of glioma cell invasiveness*, 310A

Sawaya R, Zuccarello M, El-Kalliny M. *Brain tumors and thromboembolism: clinical, hemostatic, and biochemical correlations*, 314A

Scodary D, Sawaya R, Zuccarello M, Becker C. *The role of fibronectin as a prognostic indicator in neurological surgery*, 324A

Silverstein H, Norrell H, Rosenberg S. *The resurrection of vestibular neurectomy: a 10-year experience with 100 cases*, 311A

Steiner L, Lindquist C, Steiner M. *Radiosurgery in arteriovenous malformations of the basal ganglia*, 320A

Sternau L, Maroon JC, Shackney SE, Zabkar JH, Singh M. *DNA analysis and histopathological features as predictors of recurrence in aggressive meningiomas*, 314A

Stevens MK, Yaksh TL. *Systematic studies on the effects of an NMDA receptor antagonist MK-801 on cerebral blood flow and responsivity, EEG, and blood-brain barrier following complete reversible cerebral ischemia*, 320A

Sypert GW, Cassisi JE. *A prospective independent evaluation of a multidisciplinary pain program in the rehabilitation of the failed-back syndrome patient*, 331A

Tamargo RJ, Epstein JI, Yang MB, Pinn ML, Chasin M, Brem H. *Interstitial vs. systemic chemotherapy of the intracranial 9L gliosarcoma: controlled-release polymers for local therapy*, 311A

Tasker RR, DeCarvalho GTC. *Intractable central pain of cord origin — clinical features and implications for surgery*, 316A

Temkin NR, Dikmen S, Keihm J, Chabal S, Winn HR. *Does phenytoin prevent posttraumatic seizures? 1-Year follow-up results of a randomized double-blind study in 407 patients*, 314A

Tippets RH, Hood RS. *Far-lateral disc herniation: surgical approach and clinical results in a 60-patient series*, 317A

Tullous MW, Skerhut HEI, Story JL, Brown WE Jr. *The cauda equina syndrome of long-standing ankylosing spondylitis*, 333A

Tung H, Giannotta SL. *Recurrent intraparenchymal hemorrhages from angiographically occult arteriovenous malformations*, 313A

Turner DA, Cox CM. *An excitotoxic model of Alzheimer's disease: characterization and changes with hippocampal neural grafting*, 309A

Wascher TM, Origitano TC, Reichman OH, Raymond RM, Anderson DE. *Sustained increased cerebral blood flow with prophylactic hypertensive hypervolemic hemodilution following SAH*, 320A

Wilberger J, Layman S, Maroon JC, Prostko ER, Diamond D. *Timing of surgical spinal stabilization after spinal cord injury*, 316A

Williams JA, Klein JL, Wharam MD, Wessels BW, Order SE. *Quantitative intercomparison of yttrium-90-radiolabeled monoclonal antibodies targeting human glioma* in vivo, 312A

Wisoff JH, Epstein FJ, Abbott R. *Management of hydromyelia*, 331A

Yamada S, Peterson G, Soloniuk D. *Cervical-brachial plexus*

Acetazolamide
Cerebral blood flow response to acetazolamide. Letters, 156
Achondroplasia
Foramen magnum decompression in an infant with homozygous achondroplasia. Case report, 126
Acromegaly
Evaluation of selective transsphenoidal adenomectomy by endocrinological testing and somatomedin-C measurement in acromegaly, 561
Adriamycin
Retrograde axoplasmic transport of adriamycin. Letters, 819
Air embolism
Effect of lidocaine after experimental cerebral ischemia induced by air embolism, 97
Alkylating agent
O^6-Alkylguanine-DNA alkyltransferase and sensitivity to procarbazine in human brain-tumor xenografts, 573
Allogeneic graft
Axon regeneration through blood vessel allografts after cyclosporine treatment, 115
Xenogeneic pericardium as a dural substitute in reconstruction of suboccipital dura mater in children, 905
Alzheimer's disease
The neurobiology of Alzheimer's disease, 335
American Association of Neurological Surgeons
Abstracts from AANS Annual Meeting, Washington, D.C., 309A
Scientific Program: Annual Meeting of the American Association of Neurological Surgeons, April 2–6, 1989, 296
Anastomosis, *see* Revascularization
Aneurysm
Absence of collagen deficiency in familial cerebral aneurysms, 837
Angiographic frequency of anterior circulation intracranial aneurysms, 551
Carotid cave aneurysms of the internal carotid artery, 216
Cerebral aneurysms following radiotherapy for medulloblastoma, 545
Cerebral aneurysms in childhood and adolescence, 420
Delayed ischemic deficit after SAH and aneurysm clipping. Letters, 970
Etiology of intracranial berry aneurysms, 823
Management of difficult basilar artery aneurysms. Letters, 503
Moyamoya-like disease associated with lenticulostriate region aneurysm. Case report, 802
Outcome following aneurysm wrapping: a 10-year follow-up review of clipped and wrapped aneurysms, 841
Profound hypothermia and circulatory arrest for aneurysm surgery, 489
Regrowth of aneurysm sacs from residual neck following aneurysm clipping, 556
Timing of aneurysm surgery. Letters, 813
Timing of operation for ruptured supratentorial aneurysms: a prospective randomized study, 55
Transcranial Doppler sonography within 12 hours after subarachnoid hemorrhage, 732
Treatment of vein of Galen aneurysmal malformation, 746
Aneurysm clip
Carotid cave aneurysms of the internal carotid artery, 216
Magnetic resonance imaging and aneurysm clips. Magnetic properties and image artifacts, 426
Regrowth of aneurysm sacs from residual neck following aneurysm clipping, 556
Angiography
Angiographic frequency of anterior circulation intracranial aneurysms, 551
Angioplasty
Carotid transluminal angioplasty with evidence of distal embolization. Case report, 138
Antibiotic therapy
Prophylactic parenteral antibiotics in neurosurgery. Letters, 150, 151
Anticoagulation
Complications of intracranial bypass for vertebrobasilar insufficiency, 207
Antithrombin III
Effect of intracisternal antithrombin III on subarachnoid hemorrhage-induced arterial narrowing, 599
Arachidonic acid
Release of glutamate and of free fatty acids in vasogenic brain edema, 578
Arachnoid cyst
Intradiploic arachnoid cysts. Report of two cases, 954
Surgical treatment of progressive visual loss in traumatic optic neuropathy. Report of two cases, 799
Arteriography
Recanalization of spinal arteriovenous malformations following embolization, 714
Arteriovenous fistula
Hemodynamics of spinal dural arteriovenous fistulas. An intraoperative study, 360
Reversible acute and subacute myelopathy in patients with dural arteriovenous fistulas. Foix-Alajouanine syndrome reconsidered, 354
Arteriovenous malformation
Angiographically occult AVM's. Letter, 293
Cavernous angiomas and AVM's. Letters, 500
Hemodynamics of spinal dural arteriovenous fistulas. An intraoperative study, 360
Management of juvenile spinal AVM's by embolization and operative excision. Case report, 628
Management of spinal dural arteriovenous malformations, 832
Recanalization of spinal arteriovenous malformations following embolization, 714
Transvenous copper wire insertion for dural arteriovenous malformations of cavernous sinus, 751
Treatment of vein of Galen aneurysmal malformation, 746
Vascular malformations of the brain stem, 847
Artery, *see* specific arteries
Astrocytoma
Benign astrocytic and oligodendrocytic tumors of the cerebral hemispheres in children, 568
The effects of dexamethasone on C6 astrocytoma radiosensitivity, 767
Malignant astrocytomas of the spinal cord, 50
Malignant optic glioma in adults. Case report, 277
Quality of survival of patients with brain gliomas treated with postoperative CCNU and radiation therapy, 18
Radiation therapy in the management of low-grade supratentorial astrocytomas, 853

Recurrence of cerebellar astrocytoma. Letters, 292
Atherosclerosis
Angiogenic activity of the atherosclerotic carotid artery plaque, 942
Carotid transluminal angioplasty with evidence of distal embolization. Case report, 138
The effect of atherosclerosis on endothelium-dependent relaxation in the aorta and intracranial arteries of rabbits, 793
Etiology of intracranial berry aneurysms, 823
Atlas
Neurosurgical management of acute atlas-axis combination fractures. A review of 25 cases, 45
Autoradiography
DNA synthesis, blood flow, and glucose utilization in experimental rat brain tumors, 86
Implantation of dispersed cells into primate brain, 441
Autoregulation
The effect of hypothermia on regional spinal cord blood flow in rats, 780
Hemodynamics of spinal dural arteriovenous fistulas. An intraoperative study, 360
Axis
Neurosurgical management of acute atlas-axis combination fractures. A review of 25 cases, 45
Axon regeneration
Axon regeneration through blood vessel allografts after cyclosporine treatment, 115
Axoplasmic transport
Retrograde axoplasmic transport of adriamycin. Letters, 819

Balloon embolization
Regrowth of aneurysm sacs from residual neck following aneurysm clipping, 556
Barbiturate
Barbiturates in severe head injury. Letters, 501, 502
Basilar artery
Management of difficult basilar artery aneurysms. Letters, 503
Release of endothelium-derived relaxing factor after subarachnoid hemorrhage, 108
Blood-brain barrier
The effect of interleukin-2 on the blood-brain barrier in the 9L gliosarcoma rat model, 92
Nonhyperemic blood flow restoration and brain edema in experimental focal cerebral ischemia, 73

Quality of survival of patients with brain gliomas treated with postoperative CCNU and radiation therapy, 18
Radiation therapy in the management of low-grade supratentorial astrocytomas, 853
Recurrence of cerebellar astrocytoma. Letters, 292
Stereotaxic suboccipital transcerebellar biopsy of pontine mass lesions, 195
Treatment of colloid cysts of the third ventricle by stereotaxic microsurgical laser craniotomy, 525
Treatment of oligodendrogliomas. Letter, 155
Tumor-infiltrating lymphocytes and histocompatibility antigens in primary intracranial germinomas, 81

Brain-stem hematoma
Vascular malformations of the brain stem, 847

Brain-stem neoplasm
Hyperfractionated radiation therapy for brain-stem glioma: a Phase I-II trial, 691
Posterior fossa stereotaxic biopsy using the Brown-Roberts-Wells stereotaxic system. Technical note, 649

Bromodeoxyuridine
Correlation of histopathological features and proliferative potential of gliomas, 701
DNA synthesis, blood flow, and glucose utilization in experimental rat brain tumors, 86
Flow-cytometric DNA analysis and immunohistochemical measurement of Ki-67 and BUdR labeling indices in human brain tumors, 379
In vitro BUdR labeling of brain neoplasm specimens. Letters, 814

Carotid artery
Carotid transluminal angioplasty with evidence of distal embolization. Case report, 138
Exposure of the proximal intracranial carotid artery. Letters, 656
Polytetrafluoroethylene interposition grafts in vertebral to carotid artery transposition. A long-term follow-up study, 212

Carotid cave
Carotid cave aneurysms of the internal carotid artery, 216

Carotid-ophthalmic aneurysm
Carotid cave aneurysms of the internal carotid artery, 216

Carotid sinus hypersensitivity
Treatment of carotid sinus hypersensitivity. Letters, 153

Castleman's disease
Treatment of Castleman's disease. Letter, 503

Cauda equina injury
Neurosurgical intervention in penetrating spinal trauma with associated visceral injury, 514

Cavernous angioma
Cavernous angiomas and AVM's. Letters, 500

Cavernous sinus
Neurilemomas of the trigeminal nerve, 737
Transvenous copper wire insertion for dural arteriovenous malformations of cavernous sinus, 751

CCNU
Quality of survival of patients with brain gliomas treated with postoperative CCNU and radiation therapy, 18

Cell implantation
Implantation of dispersed cells into primate brain, 441

Cell kinetics
Correlation of histopathological features and proliferative potential of gliomas, 701

Cerebral artery
Effect of intracisternal antithrombin III on subarachnoid hemorrhage-induced arterial narrowing, 599

Cerebral blood flow
Cerebral arteriovenous oxygen difference as an estimate of cerebral blood flow in comatose patients, 222
Cerebral blood flow and the thermal properties of the brain: a preliminary analysis, 592
Cerebral blood flow response to acetazolamide. Letters, 156
Clinical results of extracranial-intracranial bypass surgery in patients with hemodynamic cerebrovascular disease, 61
Early changes of intracranial pressure, perfusion pressure, and blood flow after acute head injury. Part 1: An experimental study of the underlying pathophysiology, 774
Nonhyperemic blood flow restoration and brain edema in experimental focal cerebral ischemia, 73
Transcranial Doppler sonography within 12 hours after subarachnoid hemorrhage, 732

Cerebral edema
Nonhyperemic blood flow restoration and brain edema in experimental focal cerebral ischemia, 73
Proton magnetic resonance studies of triethyltin-induced edema during perinatal brain development in rabbits, 432
Release of glutamate and of free fatty acids in vasogenic brain edema, 578

Cerebral ischemia
Degradation of neurofilament protein in cerebral ischemia, 103
Delayed ischemic deficit after SAH and aneurysm clipping. Letters, 970
Effect of lidocaine after experimental cerebral ischemia induced by air embolism, 97
Magnetic resonance imaging and ^{31}P magnetic resonance spectroscopy for evaluating focal cerebral ischemia, 612
Nonhyperemic blood flow restoration and brain edema in experimental focal cerebral ischemia, 73
Timing of operation for ruptured supratentorial aneurysms: a prospective randomized study, 55

Cerebral metabolism
Cerebral arteriovenous oxygen difference as an estimate of cerebral blood flow in comatose patients, 222

Cerebrospinal fluid
CSF production in acute ventriculitis, 619
Immunoreactive S-antigen in cerebrospinal fluid: a marker of pineal parenchymal tumors?, 682
Laboratory performance of single-piece ventriculoperitoneal shunts with distal slit-valve control, 946
Polyol content of cerebrospinal fluid in brain-tumor patients, 183
Ultrastructure of the orbital pathway for cerebrospinal fluid drainage in rabbits, 926

Cerebrospinal fluid fistula
Intradiploic arachnoid cysts. Report of two cases, 954
Treatment of spontaneous cerebrospinal fluid leak with epidural blood patch. Case report, 808
Cervical spine
Anterior cervical debridement and strut-grafting for osteomyelitis of the cervical spine, 879
Atlanto-axial rotational limitation secondary to osteoid osteoma of the axis. Case report, 129
A comparison of the Minerva and halo jackets for stabilization of the cervical spine, 411
Familial os odontoideum. Case report, 636
Halo vest versus spinal fusion for cervical injury: evidence from an outcome study, 884
Neurosurgical management of acute atlas-axis combination fractures. A review of 25 cases, 45
Posterior cervical interspinous compression wiring and fusion for mid to low cervical spinal injuries, 893
Chemonucleolysis
Chemonucleolysis versus discectomy: a randomized multicenter trial, 869
Chemotherapy
Adult cerebellar medulloblastomas: the pathological, radiographic, and clinical disease spectrum, 536
Chemotherapy as the initial treatment of spinal cord compression due to disseminated neuroblastoma, 688
Combination chemotherapy with cisplatin and etoposide for malignant intracranial germ-cell tumors. An experimental and clinical study, 676
High-dose methotrexate for non-AIDS primary central nervous system lymphoma. Report of 13 cases, 190
Intracarotid cisplatin chemotherapy for recurrent gliomas, 371
A prospective study of cognitive function in children receiving whole-brain radiotherapy and chemotherapy: 2-year results, 707
Quality of survival of patients with brain gliomas treated with postoperative CCNU and radiation therapy, 18
Children
Benign astrocytic and oligodendrocytic tumors of the cerebral hemispheres in children, 568
Cerebral aneurysms in childhood and adolescence, 420
A prospective study of cognitive function in children receiving whole-brain radiotherapy and chemotherapy: 2-year results, 707
Xenogeneic pericardium as a dural substitute in reconstruction of suboccipital dura mater in children, 905
Cholesterol
The effect of atherosclerosis on endothelium-dependent relaxation in the aorta and intracranial arteries of rabbits, 793
Chondroma
Intracranial chondroma in a patient with Ollier's disease. Case report, 274
Chondrosarcoma
Fractionated proton radiation therapy of chordoma and low-grade chondrosarcoma of the base of the skull, 13
Chordoma
Fractionated proton radiation therapy of chordoma and low-grade chondrosarcoma of the base of the skull, 13
Circulatory arrest
Profound hypothermia and circulatory arrest for aneurysm surgery, 489
Cisplatin
Combination chemotherapy with cisplatin and etoposide for malignant intracranial germ-cell tumors. An experimental and clinical study, 676
Intracarotid cisplatin chemotherapy for recurrent gliomas, 371
Cold injury
The effect of total parenteral nutrition on vasogenic edema development following cold injury in rats, 623
Collagen deficiency
Absence of collagen deficiency in familial cerebral aneurysms, 837
Colloid cyst
Treatment of colloid cysts of the third ventricle by stereotaxic microsurgical laser craniotomy, 525
Complex partial seizures
Electrophysiological connections between the hippocampus and entorhinal cortex in patients with complex partial seizures, 667
Computerized tomography
Localization of brain tumors with a simple scalp-mounted fiducial device. Technical note, 280
Multiple intracranial meningiomas, 41
Congenital anomaly
Cerebral aneurysms in childhood and adolescence, 420
Cortex
Electrophysiological localization of the human sensorimotor cortex. Letters, 817
Corticospinal tract
Quantification of retrograde degeneration in corticospinal tract fibers. Letters, 655
Craniopharyngioma
Postradiation astrocytoma. Report of two cases, 469
Craniosynostosis
Cranial vault growth in craniosynostosis, 159
Cushing, Harvey
William Osler and "the special field of neurological surgery," 759
Cyclosporine
Axon regeneration through blood vessel allografts after cyclosporine treatment, 115

Dementia
The neurobiology of Alzheimer's disease, 335
Dexamethasone
A dose-response study of dexamethasone in a model of spinal cord compression caused by epidural tumor, 920
The effects of dexamethasone on C6 astrocytoma radiosensitivity, 767
Prognostic factors for lower respiratory tract infections after brain-tumor surgery, 862
Diagnostic imaging, *see also* specific studies
Angiographically occult AVM's. Letter, 293
Diphtheria toxin
Improved tumor-specific immunotoxins in the treatment of CNS and leptomeningeal neoplasia, 240
Discectomy
Chemonucleolysis versus discectomy: a randomized multicenter trial, 869
Microsurgical reoperation following lumbar disc surgery. Timing, surgical findings, and outcome in 92 patients, 397
DNA amplification
Proto-oncogene analyses in brain tumors, 910
DNA aneuploidy
Flow-cytometric DNA analysis and immunohistochemical measurement of Ki-67 and BUdR labeling indices in human brain tumors, 379
Prognostic importance of DNA ploidy in medulloblastoma of childhood, 385
DNA repair
O^6-Alkylguanine-DNA alkyltransferase and sensitivity to procarbazine in human brain-tumor xenografts, 573
Dopamine
Effect of blood transfusion, dopamine, or normal saline on neurogenic shock secondary to acutely raised intracranial pressure, 932
Dorsal ramus
Thoracic dorsal ramus entrapment. Case report, 124
Dorsal root entry zone
A new insulated caudalis nucleus DREZ electrode. Technical note, 283

Index

Dural substitute
  Inflammatory reaction to synthetic dural substitute, 633
  Xenogeneic pericardium as a dural substitute in reconstruction of suboccipital dura mater in children, 905
Dura mater
  Transvenous copper wire insertion for dural arteriovenous malformations of cavernous sinus, 751
Dysplastic gangliocytoma
  Preoperative diagnosis of Lhermitte-Duclos disease by magnetic resonance imaging. Case report, 135
Dysthyroid orbitopathy
  Orbital decompression for dysthyroid orbitopathy. Letters, 816

Ehlers-Danlos syndrome
  Absence of collagen deficiency in familial cerebral aneurysms, 837
Electrical stimulation
  Effect of dorsal-column stimulation on gelatinosa and marginal neurons of cat spinal cord, 257
Electrocardiography
  EKG artifacts during intraoperative evoked potential monitoring. Letter, 152
Embolism
  Carotid transluminal angioplasty with evidence of distal embolization. Case report, 138
Embolization
  Management of juvenile spinal AVM's by embolization and operative excision. Case report, 628
  Recanalization of spinal arteriovenous malformations following embolization, 714
  Transvenous copper wire insertion for dural arteriovenous malformations of cavernous sinus, 751
  Treatment of vein of Galen aneurysmal malformation, 746
Embryonic graft
  Studies on embryonic transplants to the transected spinal cord of adult rats, 454
Endoscopy
  Endoscopic surgery versus medical treatment for spontaneous intracerebral hematoma: a randomized study, 530
Endothelium
  Endothelium and cerebral vasospasm. Letters, 657
Endothelium-derived relaxing factor
  The effect of atherosclerosis on endothelium-dependent relaxation in the aorta and intracranial arteries of rabbits, 793
  Release of endothelium-derived relaxing factor after subarachnoid hemorrhage, 108
Entorhinal cortex
  Electrophysiological connections between the hippocampus and entorhinal cortex in patients with complex partial seizures, 667
Ependymoma
  Lack of histopathological correlation of malignant ependymomas with postoperative survival, 31
Epidural abscess
  Anterior cervical debridement and strut-grafting for osteomyelitis of the cervical spine, 879
Epidural hematoma
  The management of "asymptomatic" epidural hematomas. A prospective study, 392
Epilepsy
  Benign astrocytic and oligodendrocytic tumors of the cerebral hemispheres in children, 568
  Electrophysiological connections between the hippocampus and entorhinal cortex in patients with complex partial seizures, 667
  Multiple subpial transection: a new approach to the surgical treatment of focal epilepsy, 231
  Pleomorphic xanthoastrocytoma. Report of four cases, 463

Erratum
  Effect of mannitol on CSF pressure: erratum. Letter, 662
Escherichia coli
  CSF production in acute ventriculitis, 619
Etoposide
  Combination chemotherapy with cisplatin and etoposide for malignant intracranial germ-cell tumors. An experimental and clinical study, 676
Evoked potentials
  EKG artifacts during intraoperative evoked potential monitoring. Letter, 152
  Electrophysiological connections between the hippocampus and entorhinal cortex in patients with complex partial seizures, 667
Extracorporeal circulation
  Profound hypothermia and circulatory arrest for aneurysm surgery, 489
Extracranial-intracranial bypass, *see also* Anastomosis; Revascularization
  Clinical results of extracranial-intracranial bypass surgery in patients with hemodynamic cerebrovascular disease, 61
  Complications of intracranial bypass for vertebrobasilar insufficiency, 207

Facial pain
  Intracranial fibro-osseous lesion. Case report, 475
Failed back syndrome
  Failed back syndrome. Letters, 659
Familial disorder
  Absence of collagen deficiency in familial cerebral aneurysms, 837
  Familial os odontoideum. Case report, 636
Fibrinolysis
  Plasmin-α_2-plasmin inhibitor complex and α_2-plasmin inhibitor in chronic subdural hematoma, 68
Flow cytometry
  Flow-cytometric DNA analysis and immunohistochemical measurement of Ki-67 and BUdR labeling indices in human brain tumors, 379
  Prognostic importance of DNA ploidy in medulloblastoma of childhood, 385
Foix-Alajouanine syndrome
  Reversible acute and subacute myelopathy in patients with dural arteriovenous fistulas. Foix-Alajouanine syndrome reconsidered, 354
Foramen magnum
  Foramen magnum decompression in an infant with homozygous achondroplasia. Case report, 126
Furosemide
  The effect of furosemide on intracranial pressure and hemorrhage in preterm rabbits, 785

Germ-cell tumor
  Combination chemotherapy with cisplatin and etoposide for malignant intracranial germ-cell tumors. An experimental and clinical study, 676
Germinal matrix hemorrhage
  The effect of furosemide on intracranial pressure and hemorrhage in preterm rabbits, 785
Germinoma
  Postradiation astrocytoma. Report of two cases, 469
  Tumor-infiltrating lymphocytes and histocompatibility antigens in primary intracranial germinomas, 81

Glioblastoma
The effects of dexamethasone on C6 astrocytoma radiosensitivity, 767
Epidermal growth factor receptor in human glioma, 916
Polyol content of cerebrospinal fluid in brain-tumor patients, 183
Quality of survival of patients with brain gliomas treated with postoperative CCNU and radiation therapy, 18
Glioblastoma multiforme
Malignant astrocytomas of the spinal cord, 50
Presence and significance of NK cells in glioblastomas, 728
Glioma
Correlation of histopathological features and proliferative potential of gliomas, 701
Epidermal growth factor receptor in human glioma, 916
Flow-cytometric DNA analysis and immunohistochemical measurement of Ki-67 and BUdR labeling indices in human brain tumors, 379
Hyperfractionated radiation therapy for brain-stem glioma: a Phase I-II trial, 691
Interferon therapy for recurrent gliomas. Letter, 660
Intracarotid cisplatin chemotherapy for recurrent gliomas, 371
O^6-Alkylguanine-DNA alkyltransferase and sensitivity to procarbazine in human brain-tumor xenografts, 573
Pleomorphic xanthoastrocytoma. Report of four cases, 463
Postradiation astrocytoma. Report of two cases, 469
Glossopharyngeal neuritis
Microvascular compression: an alternative view and hypothesis, 1
Glucose utilization
DNA synthesis, blood flow, and glucose utilization in experimental rat brain tumors, 86
Glutamate
Release of glutamate and of free fatty acids in vasogenic brain edema, 578
Growth hormone
Evaluation of selective transsphenoidal adenomectomy by endocrinological testing and somatomedin-C measurement in acromegaly, 561
Gunshot wound
Civilian gunshot wounds to the brachial plexus, 166
Neurosurgical intervention in penetrating spinal trauma with associated visceral injury, 514

Halo jacket
A comparison of the Minerva and halo jackets for stabilization of the cervical spine, 411
Halo vest versus spinal fusion for cervical injury: evidence from an outcome study, 884
Hamartoma
Meningioangiomatosis in a patient without von Recklinghausen's disease. Case report, 483
Head injury
Barbiturates in severe head injury. Letters, 501, 502
Cerebral arteriovenous oxygen difference as an estimate of cerebral blood flow in comatose patients, 222
Early changes of intracranial pressure, perfusion pressure, and blood flow after acute head injury. Part 1: An experimental study of the underlying pathophysiology, 774
Effect of blood transfusion, dopamine, or normal saline on neurogenic shock secondary to acutely raised intracranial pressure, 932
The management of "asymptomatic" epidural hematomas. A prospective study, 392
Neuropsychological deficit and emotional disturbance in head-injured patients, 509
Hemangioblastoma
Hemangioblastomas of the central nervous system. A 10-year study with special reference to von Hippel-Lindau syndrome, 24
Hematoma
Endoscopic surgery versus medical treatment for spontaneous intracerebral hematoma: a randomized study, 530
Hemifacial spasm
Microvascular compression: an alternative view and hypothesis, 1
Hemodynamics
Hemodynamics of spinal dural arteriovenous fistulas. An intraoperative study, 360
Hemostasis
Hemostatic control of scalp incisions. Technical note, 142
Herniated nucleus pulposus
Microsurgical reoperation following lumbar disc surgery. Timing, surgical findings, and outcome in 92 patients, 397
Hippocampus
Electrophysiological connections between the hippocampus and entorhinal cortex in patients with complex partial seizures, 667
Histoplasmosis
Intramedullary spinal *Histoplasma* granuloma. Case report, 959
History of neurosurgery
William Osler and "the special field of neurological surgery," 759
Hydrocephalus
Foramen magnum decompression in an infant with homozygous achondroplasia. Case report, 126
Laboratory performance of single-piece ventriculoperitoneal shunts with distal slit-valve control, 946
Retrieval of loose peritoneal shunts by laparoscopy. Technical note, 282
Hydrogen clearance
Cerebral blood flow and the thermal properties of the brain: a preliminary analysis, 592
Hydromyelia
Lumboperitoneal shunt combined with myelotomy for treatment of syringohydromyelia, 721
Hyperfibrinolysis
Plasmin-α_2-plasmin inhibitor complex and α_2-plasmin inhibitor in chronic subdural hematoma, 68
Hyperfractionation radiation therapy
Hyperfractionated radiation therapy for brain-stem glioma: a Phase I-II trial, 691
Hypertension
The treatment of spontaneous intracerebral hemorrhage. A prospective randomized trial of surgical and conservative treatment, 755
Hyperthermia
Cerebral blood flow and the thermal properties of the brain: a preliminary analysis, 592
Hyponatremia
Administration of intravenous urea and normal saline for the treatment of hyponatremia in neurosurgical patients, 201
Hypothalamic hamartoma
Hypothalamic hamartoma. Report of two cases, 640
Hypothermia
The effect of hypothermia on regional spinal cord blood flow in rats, 780
Profound hypothermia and circulatory arrest for aneurysm surgery, 489

Immunohistochemistry
Tumor-infiltrating lymphocytes and histocompatibility antigens in primary intracranial germinomas, 81
Immunotherapy
The effect of interleukin-2 on the blood-brain barrier in the 9L

Index

gliosarcoma rat model, 92
Intratumoral LAK cell and interleukin-2 therapy of human gliomas, 175
Presence and significance of NK cells in glioblastomas, 728
Immunotoxin
Improved tumor-specific immunotoxins in the treatment of CNS and leptomeningeal neoplasia, 240
Inappropriate secretion of antidiuretic hormone
Administration of intravenous urea and normal saline for the treatment of hyponatremia in neurosurgical patients, 201
Infant
Foramen magnum decompression in an infant with homozygous achondroplasia. Case report, 126
Instrumentation
Vertebral body impactor for posterior lateral decompression of thoracic and lumbar fractures. Technical note, 285
Interferon therapy
Interferon therapy for recurrent gliomas. Letter, 660
Interleukin-2
The effect of interleukin-2 on the blood-brain barrier in the 9L gliosarcoma rat model, 92
Intratumoral LAK cell and interleukin-2 therapy of human gliomas, 175
Internal carotid artery
Carotid cave aneurysms of the internal carotid artery, 216
Intervertebral disc
Chemonucleolysis versus discectomy: a randomized multicenter trial, 869
Gas in a spinal extradural cyst. Case report, 486
Microsurgical reoperation following lumbar disc surgery. Timing, surgical findings, and outcome in 92 patients, 397
Subtle huge intervertebral disc herniation, 876
Intracerebral hemorrhage
Endoscopic surgery versus medical treatment for spontaneous intracerebral hematoma: a randomized study, 530
Moyamoya-like disease associated with lenticulostriate region aneurysm. Case report, 802
The treatment of spontaneous intracerebral hemorrhage. A prospective randomized trial of surgical and conservative treatment, 755
Intracranial hematoma
The treatment of spontaneous intracerebral hemorrhage. A prospective randomized trial of surgical and conservative treatment, 755
Intracranial pressure
Early changes of intracranial pressure, perfusion pressure, and blood flow after acute head injury. Part 1: An experimental study of the underlying pathophysiology, 774
Effect of blood transfusion, dopamine, or normal saline on neurogenic shock secondary to acutely raised intracranial pressure, 932
The effect of furosemide on intracranial pressure and hemorrhage in preterm rabbits, 785
The effect of hypothermia on regional spinal cord blood flow in rats, 780
Intraventricular arachnoid cyst
Intraventricular arachnoid cyst. Letters, 154
Intraventricular hemorrhage
The effect of furosemide on intracranial pressure and hemorrhage in preterm rabbits, 785

Ki-67
Flow-cytometric DNA analysis and immunohistochemical measurement of Ki-67 and BUdR labeling indices in human brain tumors, 379
Klippel-Feil deformity
Familial os odontoideum. Case report, 636

Laparoscopy
Retrieval of loose peritoneal shunts by laparoscopy. Technical note, 282
Laser
New long-wavelength Nd:YAG laser at 1.44 μm: effect on brain, 249
Treatment of colloid cysts of the third ventricle by stereotaxic microsurgical laser craniotomy, 525
Leptomeningeal neoplasia
Improved tumor-specific immunotoxins in the treatment of CNS and leptomeningeal neoplasia, 240
Pleomorphic xanthoastrocytoma. Report of four cases, 463
Lhermitte-Duclos disease
Preoperative diagnosis of Lhermitte-Duclos disease by magnetic resonance imaging. Case report, 135
Lidocaine
Effect of lidocaine after experimental cerebral ischemia induced by air embolism, 97
Lindau tumor
Hemangioblastomas of the central nervous system. A 10-year study with special reference to von Hippel-Lindau syndrome, 24
Lumbar spine
Chemonucleolysis versus discectomy: a randomized multicenter trial, 869
Microsurgical reoperation following lumbar disc surgery. Timing, surgical findings, and outcome in 92 patients, 397
One-stage posterolateral decompression and stabilization for primary and metastatic vertebral tumors in the thoracic and lumbar spine, 405
Lumboperitoneal shunt
Lumboperitoneal shunt combined with myelotomy for treatment of syringohydromyelia, 721
Thermosensitive determination of patency in lumboperitoneal shunts. Technical note, 143
Lymphokine-activated killer cell
Intratumoral LAK cell and interleukin-2 therapy of human gliomas, 175
Lymphoma
High-dose methotrexate for non-AIDS primary central nervous system lymphoma. Report of 13 cases, 190

Maffucci's syndrome
Intracranial chondroma in a patient with Ollier's disease. Case report, 274
Magnetic resonance imaging
Hypothalamic hamartoma. Report of two cases, 640
Lumboperitoneal shunt combined with myelotomy for treatment of syringohydromyelia, 721
Magnetic resonance imaging and aneurysm clips. Magnetic properties and image artifacts, 426
Magnetic resonance imaging and ^{31}P magnetic resonance spectroscopy for evaluating focal cerebral ischemia, 612
Magnetic resonance imaging in myelocystoceles. Report of two cases, 804
Magnetic resonance imaging of acute SAH. Letters, 657
Magnetic resonance imaging of vascular compression in trigeminal neuralgia. Case report, 132
MR imaging of subarachnoid hemorrhage. Letters, 155
Preoperative diagnosis of Lhermitte-Duclos disease by magnetic resonance imaging. Case report, 135
Proton magnetic resonance studies of triethyltin-induced edema during perinatal brain development in rabbits, 432
Magnetic resonance spectroscopy
Magnetic resonance imaging and ^{31}P magnetic resonance spectroscopy for evaluating focal cerebral ischemia, 612
Mannitol
Effect of mannitol on CSF pressure: erratum. Letter, 662

Medulloblastoma
Adult cerebellar medulloblastomas: the pathological, radiographic, and clinical disease spectrum, 536
Cerebral aneurysms following radiotherapy for medulloblastoma, 545
O^6-Alkylguanine-DNA alkyltransferase and sensitivity to procarbazine in human brain-tumor xenografts, 573
Prognostic importance of DNA ploidy in medulloblastoma of childhood, 385
Meningioangiomatosis
Meningioangiomatosis in a patient without von Recklinghausen's disease. Case report, 483
Meningioma
Multiple intracranial meningiomas, 41
Papillary meningioma with pulmonary metastasis. Case report, 478
Primary optic nerve sheath meningiomas. Report of nine cases, 37
Prognostic factors for lower respiratory tract infections after brain-tumor surgery, 862
Spinal meningioma arising from a lumbar nerve root. Case report, 646
Meningocele
Magnetic resonance imaging in myelocystoceles. Report of two cases, 804
Meralgia paresthetica
Suprainguinal ligament approach for surgical treatment of meralgia paresthetica. Technical note, 492
Methotrexate
High-dose methotrexate for non-AIDS primary central nervous system lymphoma. Report of 13 cases, 190
Microvascular decompression
Magnetic resonance imaging of vascular compression in trigeminal neuralgia. Case report, 132
Microvascular compression-decompression: a recollection. Letter, 819
Microvascular compression: an alternative view and hypothesis, 1
Tic douloureux caused by primitive trigeminal artery or its variant, 415
Microvasculature
Angiogenic activity of the atherosclerotic carotid artery plaque, 942
Minerva jacket
A comparison of the Minerva and halo jackets for stabilization of the cervical spine, 411
Monoclonal antibody
Epidermal growth factor receptor in human glioma, 916
Presence and significance of NK cells in glioblastomas, 728
Moyamoya disease
Moyamoya-like disease associated with lenticulostriate region aneurysm. Case report, 802
Myelocystocele
Magnetic resonance imaging in myelocystoceles. Report of two cases, 804
Myelomeningocele
Delayed tethered cord syndrome after myelomeningocele repair. Letters, 815
Myelopathy
Reversible acute and subacute myelopathy in patients with dural arteriovenous fistulas. Foix-Alajouanine syndrome reconsidered, 354

Natural killer cell
Presence and significance of NK cells in glioblastomas, 728
Nd:YAG laser
New long-wavelength Nd:YAG laser at 1.44 μm: effect on brain, 249
Nerve action potential
Civilian gunshot wounds to the brachial plexus, 166
Construction of a simple multi-lead electrode for intraoperative nerve recording. Technical note, 962
Nerve decompression
Neurosurgical intervention in penetrating spinal trauma with associated visceral injury, 514
Suprainguinal ligament approach for surgical treatment of meralgia paresthetica. Technical note, 492
Nerve degeneration
Quantification of retrograde degeneration in corticospinal tract fibers. Letters, 655
Nerve entrapment
Thoracic dorsal ramus entrapment. Case report, 124
Nerve graft
Civilian gunshot wounds to the brachial plexus, 166
Neurilemoma
Neurilemomas of the trigeminal nerve, 737
Neuroblastoma
Chemotherapy as the initial treatment of spinal cord compression due to disseminated neuroblastoma, 688
Neurochemistry
The neurobiology of Alzheimer's disease, 335
Neurofibromatosis
Meningioangiomatosis in a patient without von Recklinghausen's disease. Case report, 483
Neurofilament protein
Degradation of neurofilament protein in cerebral ischemia, 103
Neurogenic shock
Effect of blood transfusion, dopamine, or normal saline on neurogenic shock secondary to acutely raised intracranial pressure, 932
Neurolysis
Civilian gunshot wounds to the brachial plexus, 166
Nimodipine
Timing of operation for ruptured supratentorial aneurysms: a prospective randomized study, 55
Nucleus caudalis
A new insulated caudalis nucleus DREZ electrode. Technical note, 283
Nucleus pulposus
Chemonucleolysis versus discectomy: a randomized multicenter trial, 869
Gas in a spinal extradural cyst. Case report, 486
Subtle huge intervertebral disc herniation, 876

Odontoid fracture
Halo vest versus spinal fusion for cervical injury: evidence from an outcome study, 884
Oligodendroglioma
Benign astrocytic and oligodendrocytic tumors of the cerebral hemispheres in children, 568
Quality of survival of patients with brain gliomas treated with postoperative CCNU and radiation therapy, 18
Treatment of oligodendrogliomas. Letter, 155
Ollier's disease
Intracranial chondroma in a patient with Ollier's disease. Case report, 274
Oncogene
Epidermal growth factor receptor in human glioma, 916
Proto-oncogene analyses in brain tumors, 910
Operative approach, *see also* Surgical technique
Anterior cervical debridement and strut-grafting for osteomyelitis of the cervical spine, 879
Atlanto-axial rotational limitation secondary to osteoid osteoma of the axis. Case report, 129

Index

Suprainguinal ligament approach for surgical treatment of meralgia paresthetica. Technical note, 492
Optic glioma
Malignant optic glioma in adults. Case report, 277
Optic nerve
Primary optic nerve sheath meningiomas. Report of nine cases, 37
Optic neuropathy
Surgical treatment of progressive visual loss in traumatic optic neuropathy. Report of two cases, 799
Orbital decompression
Orbital decompression for dysthyroid orbitopathy. Letters, 816
Osler, William
William Osler and "the special field of neurological surgery," 759
Os odontoideum
Familial os odontoideum. Case report, 636
Osteoid osteoma
Atlanto-axial rotational limitation secondary to osteoid osteoma of the axis. Case report, 129
Osteomyelitis
Anterior cervical debridement and strut-grafting for osteomyelitis of the cervical spine, 879
Outcome
Benign astrocytic and oligodendrocytic tumors of the cerebral hemispheres in children, 568
Endoscopic surgery versus medical treatment for spontaneous intracerebral hematoma: a randomized study, 530
Lack of histopathological correlation of malignant ependymomas with postoperative survival, 31
Management of spinal dural arteriovenous malformations, 832
Microsurgical reoperation following lumbar disc surgery. Timing, surgical findings, and outcome in 92 patients, 397
Neuropsychological deficit and emotional disturbance in head-injured patients, 509
A prospective study of cognitive function in children receiving whole-brain radiotherapy and chemotherapy: 2-year results, 707
Radiation therapy in the management of low-grade supratentorial astrocytomas, 853

Pain
Dissociated mesencephalic responses to medial and ventral thalamic nuclei stimulation in rats. Relationship to analgesic mechanism, 446
Effect of dorsal-column stimulation on gelatinosa and marginal neurons of cat spinal cord, 257
Intracranial fibro-osseous lesion. Case report, 475
Spinal cord stimulation in management of chronic pain. A 9-year experience, 519
Peripheral nerve
Construction of a simple multi-lead electrode for intraoperative nerve recording. Technical note, 962
Peripheral nerve compression
Percutaneous trigeminal ganglion compression for trigeminal neuralgia. Experience in 22 patients and review of the literature, 900
Pineocytoma
Immunoreactive S-antigen in cerebrospinal fluid: a marker of pineal parenchymal tumors?, 682
Pituitary adenoma
Acidophil stem-cell pituitary adenoma in a prepubescent female. Case report, 266
Evaluation of selective transsphenoidal adenomectomy by endocrinological testing and somatomedin-C measurement in acromegaly, 561
Intrasellar persistent trigeminal artery associated with a pituitary adenoma. Case report, 271
Pneumonia
Prognostic factors for lower respiratory tract infections after brain-tumor surgery, 862
Polyol
Polyol content of cerebrospinal fluid in brain-tumor patients, 183
Polytetrafluoroethylene
Polytetrafluoroethylene interposition grafts in vertebral to carotid artery transposition. A long-term follow-up study, 212
Pons
Stereotaxic suboccipital transcerebellar biopsy of pontine mass lesions, 195
Positron emission tomography
Clinical results of extracranial-intracranial bypass surgery in patients with hemodynamic cerebrovascular disease, 61
Post-herpetic pain
Spinal cord stimulation in management of chronic pain. A 9-year experience, 519
Postradiation glioma
Postradiation astrocytoma. Report of two cases, 469
Precocious puberty
Hypothalamic hamartoma. Report of two cases, 640
Primitive neuroectodermal tumor
Adult cerebellar medulloblastomas: the pathological, radiographic, and clinical disease spectrum, 536
Primitive trigeminal artery
Tic douloureux caused by primitive trigeminal artery or its variant, 415
Prognosis, *see* Outcome
Prophylactic antibiotic
Prophylactic parenteral antibiotics in neurosurgery. Letters, 150, 151
Proton therapy
Fractionated proton radiation therapy of chordoma and low-grade chondrosarcoma of the base of the skull, 13
Proto-oncogene
Proto-oncogene analyses in brain tumors, 910
Pseudoaneurysm
Moyamoya-like disease associated with lenticulostriate region aneurysm. Case report, 802
Pulmonary metastasis
Papillary meningioma with pulmonary metastasis. Case report, 478

Radiation therapy
Adult cerebellar medulloblastomas: the pathological, radiographic, and clinical disease spectrum, 536
Cerebral aneurysms following radiotherapy for medulloblastoma, 545
The effects of dexamethasone on C6 astrocytoma radiosensitivity, 767
Fractionated proton radiation therapy of chordoma and low-grade chondrosarcoma of the base of the skull, 13
Hyperfractionated radiation therapy for brain-stem glioma: a Phase I-II trial, 691
Postradiation astrocytoma. Report of two cases, 469
A prospective study of cognitive function in children receiving whole-brain radiotherapy and chemotherapy: 2-year results, 707
Quality of survival of patients with brain gliomas treated with postoperative CCNU and radiation therapy, 18
Radiation therapy in the management of low-grade supratentorial astrocytomas, 853
Reactive hyperemia
Nonhyperemic blood flow restoration and brain edema in experimental focal cerebral ischemia, 73

Respiratory tract infection
Prognostic factors for lower respiratory tract infections after brain-tumor surgery, 862
Retrograde degeneration
Quantification of retrograde degeneration in corticospinal tract fibers. Letters, 655
Revascularization, *see also* Anastomosis
Complications of intracranial bypass for vertebrobasilar insufficiency, 207
Polytetrafluoroethylene interposition grafts in vertebral to carotid artery transposition. A long-term follow-up study, 212

Sacrum
Treatment of spontaneous cerebrospinal fluid leak with epidural blood patch. Case report, 808
S-antigen
Immunoreactive S-antigen in cerebrospinal fluid: a marker of pineal parenchymal tumors?, 682
Seizure
Electrophysiological connections between the hippocampus and entorhinal cortex in patients with complex partial seizures, 667
Hypothalamic hamartoma. Report of two cases, 640
Meningioangiomatosis in a patient without von Recklinghausen's disease. Case report, 483
Sensorimotor cortex
Electrophysiological localization of the human sensorimotor cortex. Letters, 817
Shunt
Laboratory performance of single-piece ventriculoperitoneal shunts with distal slit-valve control, 946
Retrieval of loose peritoneal shunts by laparoscopy. Technical note, 282
Thermosensitive determination of patency in lumboperitoneal shunts. Technical note, 143
Skull deformity
Cranial vault growth in craniosynostosis, 159
Skull fracture
The management of "asymptomatic" epidural hematomas. A prospective study, 392
Skull lesion
Intradiploic arachnoid cysts. Report of two cases, 954
Skull neoplasm
Fractionated proton radiation therapy of chordoma and low-grade chondrosarcoma of the base of the skull, 13
Intracranial fibro-osseous lesion. Case report, 475
Synovial chondromatosis of the temporomandibular joint with intracranial extension. Case report, 121
Somatomedin-C
Evaluation of selective transsphenoidal adenomectomy by endocrinological testing and somatomedin-C measurement in acromegaly, 561
Somatosensory evoked potentials
Effect of lidocaine after experimental cerebral ischemia induced by air embolism, 97
Spinal cord
A dose-response study of dexamethasone in a model of spinal cord compression caused by epidural tumor, 920
Effect of dorsal-column stimulation on gelatinosa and marginal neurons of cat spinal cord, 257
The effect of hypothermia on regional spinal cord blood flow in rats, 780
Intramedullary spinal *Histoplasma* granuloma. Case report, 959
Recanalization of spinal arteriovenous malformations following embolization, 714
Reversible acute and subacute myelopathy in patients with dural arteriovenous fistulas. Foix-Alajouanine syndrome reconsidered, 354
Spinal cord injury
Neurosurgical intervention in penetrating spinal trauma with associated visceral injury, 514
Results of Spinal Task Force Survey. Letter, 292
Spinal cord injury and the stress protein response, 605
Studies on embryonic transplants to the transected spinal cord of adult rats, 454
Spinal cord neoplasm
Chemotherapy as the initial treatment of spinal cord compression due to disseminated neuroblastoma, 688
Malignant astrocytomas of the spinal cord, 50
Spinal cord stimulation
Spinal cord stimulation in management of chronic pain. A 9-year experience, 519
Spinal extradural cyst
Gas in a spinal extradural cyst. Case report, 486
Spinal fracture
Neurosurgical management of acute atlas-axis combination fractures. A review of 25 cases, 45
Spinal headache
Treatment of spontaneous cerebrospinal fluid leak with epidural blood patch. Case report, 808
Spinal injury
Halo vest versus spinal fusion for cervical injury: evidence from an outcome study, 884
Posterior cervical interspinous compression wiring and fusion for mid to low cervical spinal injuries, 893
Vertebral body impactor for posterior lateral decompression of thoracic and lumbar fractures. Technical note, 285
Spinal neoplasm
Atlanto-axial rotational limitation secondary to osteoid osteoma of the axis. Case report, 129
One-stage posterolateral decompression and stabilization for primary and metastatic vertebral tumors in the thoracic and lumbar spine, 405
Spinal meningioma arising from a lumbar nerve root. Case report, 646
Spinal nerve
Spinal meningioma arising from a lumbar nerve root. Case report, 646
Thoracic dorsal ramus entrapment. Case report, 124
Spinal stabilization
Anterior cervical debridement and strut-grafting for osteomyelitis of the cervical spine, 879
A comparison of the Minerva and halo jackets for stabilization of the cervical spine, 411
Halo vest versus spinal fusion for cervical injury: evidence from an outcome study, 884
One-stage posterolateral decompression and stabilization for primary and metastatic vertebral tumors in the thoracic and lumbar spine, 405
Posterior cervical interspinous compression wiring and fusion for mid to low cervical spinal injuries, 893
Spinal Task Force Survey
Results of Spinal Task Force Survey. Letter, 292
Stereotaxis
Implantation of dispersed cells into primate brain, 441
Posterior fossa stereotaxic biopsy using the Brown-Roberts-Wells stereotaxic system. Technical note, 649
Stereotaxic suboccipital transcerebellar biopsy of pontine mass lesions, 195
Treatment of colloid cysts of the third ventricle by stereotaxic microsurgical laser craniotomy, 525
Stress protein
Spinal cord injury and the stress protein response, 605
Stroke
Angiogenic activity of the atherosclerotic carotid artery plaque, 942
Clinical results of extracranial-intracranial bypass surgery in

Index

patients with hemodynamic cerebrovascular disease, 61
Subarachnoid hemorrhage
Angiographic frequency of anterior circulation intracranial aneurysms, 551
Delayed ischemic deficit after SAH and aneurysm clipping. Letters, 970
Effect of intracisternal antithrombin III on subarachnoid hemorrhage-induced arterial narrowing, 599
Magnetic resonance imaging of acute SAH. Letters, 657
MR imaging of subarachnoid hemorrhage. Letters, 155
Outcome following aneurysm wrapping: a 10-year follow-up review of clipped and wrapped aneurysms, 841
Profound hypothermia and circulatory arrest for aneurysm surgery, 489
Regrowth of aneurysm sacs from residual neck following aneurysm clipping, 556
Release of endothelium-derived relaxing factor after subarachnoid hemorrhage, 108
Subarachnoid hemorrhage and intracranial pulse waves. Letters, 661
Timing of operation for ruptured supratentorial aneurysms: a prospective randomized study, 55
Transcranial Doppler sonography within 12 hours after subarachnoid hemorrhage, 732
Vascular malformations of the brain stem, 847
Subdural hematoma
Plasmin-α_2-plasmin inhibitor complex and α_2-plasmin inhibitor in chronic subdural hematoma, 68
Surgical technique, *see also* Operative approach
Hemostatic control of scalp incisions. Technical note, 142
Management of juvenile spinal AVM's by embolization and operative excision. Case report, 628
Multiple subpial transection: a new approach to the surgical treatment of focal epilepsy, 231
One-stage posterolateral decompression and stabilization for primary and metastatic vertebral tumors in the thoracic and lumbar spine, 405
Synovial chondromatosis
Synovial chondromatosis of the temporomandibular joint with intracranial extension. Case report, 121
Syringomyelia
Lumboperitoneal shunt combined with myelotomy for treatment of syringohydromyelia, 721

Temporomandibular joint
Synovial chondromatosis of the temporomandibular joint with intracranial extension. Case report, 121
Teratoma
Combination chemotherapy with cisplatin and etoposide for malignant intracranial germ-cell tumors. An experimental and clinical study, 676
Tethered cord
Delayed tethered cord syndrome after myelomeningocele repair. Letters, 815
Thalamus
Dissociated mesencephalic responses to medial and ventral thalamic nuclei stimulation in rats. Relationship to analgesic mechanism, 446
Thermometry
Cerebral blood flow and the thermal properties of the brain: a preliminary analysis, 592
Third ventricle
Treatment of colloid cysts of the third ventricle by stereotaxic microsurgical laser craniotomy, 525
Thoracic spine
One-stage posterolateral decompression and stabilization for primary and metastatic vertebral tumors in the thoracic and lumbar spine, 405
Thoracic dorsal ramus entrapment. Case report, 124
Thrombolysis
Relationship of thrombolysis to vasospasm. Letter, 969
Tic douloureux
Tic douloureux caused by primitive trigeminal artery or its variant, 415
Total parenteral nutrition
The effect of total parenteral nutrition on vasogenic edema development following cold injury in rats, 623
Transferrin receptor
Improved tumor-specific immunotoxins in the treatment of CNS and leptomeningeal neoplasia, 240
Transluminal angioplasty
Carotid transluminal angioplasty with evidence of distal embolization. Case report, 138
Transoral approach
Atlanto-axial rotational limitation secondary to osteoid osteoma of the axis. Case report, 129
Transplantation
Studies on embryonic transplants to the transected spinal cord of adult rats, 454
Transsphenoidal surgery
Evaluation of selective transsphenoidal adenomectomy by endocrinological testing and somatomedin-C measurement in acromegaly, 561
Traumatic aneurysm
Cerebral aneurysms in childhood and adolescence, 420
Triethyltin
Proton magnetic resonance studies of triethyltin-induced edema during perinatal brain development in rabbits, 432
Trigeminal artery
Intrasellar persistent trigeminal artery associated with a pituitary adenoma. Case report, 271
Trigeminal nerve
Intracranial fibro-osseous lesion. Case report, 475
Neurilemomas of the trigeminal nerve, 737
A new insulated caudalis nucleus DREZ electrode. Technical note, 283
Trigeminal neuralgia
Magnetic resonance imaging of vascular compression in trigeminal neuralgia. Case report, 132
Microvascular compression: an alternative view and hypothesis, 1
Percutaneous trigeminal ganglion compression for trigeminal neuralgia. Experience in 22 patients and review of the literature, 900
Tic douloureux caused by primitive trigeminal artery or its variant, 415
Tumor-infiltrating lymphocyte
Tumor-infiltrating lymphocytes and histocompatibility antigens in primary intracranial germinomas, 81

Ultrastructural study
Ultrastructure of the orbital pathway for cerebrospinal fluid drainage in rabbits, 926

Vasogenic edema
The effect of total parenteral nutrition on vasogenic edema development following cold injury in rats, 623
Release of glutamate and of free fatty acids in vasogenic brain edema, 578
Vasospasm
Effect of intracisternal antithrombin III on subarachnoid hemorrhage-induced arterial narrowing, 599

Endothelium and cerebral vasospasm. Letters, 657
Relationship of thrombolysis to vasospasm. Letter, 969
Vein of Galen
Treatment of vein of Galen aneurysmal malformation, 746
Venous thrombosis
Reversible acute and subacute myelopathy in patients with dural arteriovenous fistulas. Foix-Alajouanine syndrome reconsidered, 354
Ventral nucleus
Dissociated mesencephalic responses to medial and ventral thalamic nuclei stimulation in rats. Relationship to analgesic mechanism, 446
Ventriculitis
CSF production in acute ventriculitis, 619
Ventriculoperitoneal shunt
Laboratory performance of single-piece ventriculoperitoneal shunts with distal slit-valve control, 946
Retrieval of loose peritoneal shunts by laparoscopy. Technical note, 282
Vertebral artery
Polytetrafluoroethylene interposition grafts in vertebral to carotid artery transposition. A long-term follow-up study, 212
Vertebrobasilar insufficiency
Complications of intracranial bypass for vertebrobasilar insufficiency, 207
von Hippel-Lindau syndrome
Hemangioblastomas of the central nervous system. A 10-year study with special reference to von Hippel-Lindau syndrome, 24
von Recklinghausen's disease
Meningioangiomatosis in a patient without von Recklinghausen's disease. Case report, 483

Xanthoastrocytoma
Pleomorphic xanthoastrocytoma. Report of four cases, 463
Xenogeneic pericardium
Xenogeneic pericardium as a dural substitute in reconstruction of suboccipital dura mater in children, 905
